GREAT REMEDY

CONSTITUTION

And the only known Remedy DIABETES and DISEASES of the KIDNEYS and BLADDER.

CONSTITUTION WATER

Has been pronounced by the Medical Faculty and the public, to be the most wonderful remedy for the per-manent cure of all diseases of the STOMACH, LIV-ER, KIDNEYS and BLADDER that has ever been

manent cure of all diseases of the STOMACH, LIVER, KIDNEYS and BLADDER that has ever been offered.

It is not a MINERAL WATER. It is from experience that CONSTITUTION WATER has emenated, and we now say let no man-doubt, when a single bottle has been known to cure diseases which the best medical talent in the country falled to relieve. A remedy possessing the virtues of Constitution Water cannot be classed under "quack" preparations, as it is now used by the most scientific practitioners in the city. It is only second-class physicians that cry down popular remedies, while the better skilled make use of every means to accomplish a cure; and the success of the physician increases as his knowledge of different remedies enables him to produce a cure, while others full in the attempt.—Science is satisfied with the truth.

Give Constitution Water a fair trial—we mean you who are under some specialist's care from year to year, and we particularly allude to ladies who are constantly resorting to LOCAL TREATMENT, and all sorts of local applications for diseases of the brain.

We have always been careful to use language in our circular that could not shock the most delicate organization, but we receive many communications from persons for whom Constitution Water is adopted, and of whose disease no mention has been made, that we have come to the conclusion that if the remedy is capable of producing a cure, no matter what the disease may be, it should be made known. The medicine is put up for the public and there should be no exceptions.

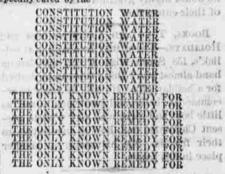

DIABETES

Is a disease of the stomach and liver, acting through the kidneys, and is without doubt, the most obstinate disease, except Consumption, that affects the human constitution. We have no space for disease, stopping the state that the effect of the disease is the conversion of the starety principle (or vegotable portion of the food) into augar, which stimulates the kidneys to an excessive secretion of water. Many persons suffer from this disease who are ignorant of it; that is, they pass large quantities aduring the day, and are obliged to get up from one to fitteen or twenty times during the night. No notice it taken of it until their attention is called to the large discharge of water, and often when it is so far advanced as to be beyond the control of ordinary remedies. Another symptom is the great thirst, which, when the disease is fully established, is installed to the large discharge of water, and often when it is so far and smally loss of apacitic, chaciation, and the patient gradually loss of appetite, chaciation, and the patient gradually sinks from exhaustion.

Constitution Water is, without doubt, the only known remedy for diabetes, and we have as much confidence that it is a specific as we have that optima will produce sleep, and truthfully say that it has cared every case in which it has been used.

Have long since given up the use of buchu, cubebs, and juniper in the treatment of those diseases, and only use them for want of a better remedy. CONSTITUTION WATER Has proved itself equal to the task that has devolv-DIRECTION INSTRUMENTALINATE

Boston Corners, N. Y., Dec. 27, 1861.—Wis. H., Grigg & Co.—Gents: I freely give you liberty to make use of the following certificate of the value of Constitution Water, which I can recommend in the highest manner.—My wife was attacked with pain in the shoulders, whole length of the back, and in her limbs, with Palpitation of the Heart and Irrimation of the Hadder. I called a physician, who attended her about three months, when he left her worse than he found her. I then employed one of the heart physians I could find, who attended her for about mine months, and while she was under his care she did not suffer quite as much pain. He finally gave her up, and said "her case was incurable," For," said he, "she has such a combination of complaints that medicine given for one operates against some other of her afflictions." About this time she commenced the use of Constitution Water, and to our utter astonishment almost the first dose seemed to have the desired effect, and she kept on improving a repidly under its treatment, and now superintends entirely her domestic utfairs. She has not taken any of the Constitution Water for about four taken any of the Constitution Water for about four taken any of the Constitution Water for about four taken, and we are happy to say that it has produced a permanent cure. avdalati WM.
